

## Instructions for downloading certificates

1. On any Internet connected PC, browse to this URL:

<https://support.comodo.com/index.php?/Knowledgebase/Article/View/985/108/code-signing-sha-2>

Links to the three required certificates are listed at the bottom of the page in the Attachments section.

- addtrustexternalcaroot.crt
- comodorsaaddtrustca.crt
- comodorsacodesigningca.crt

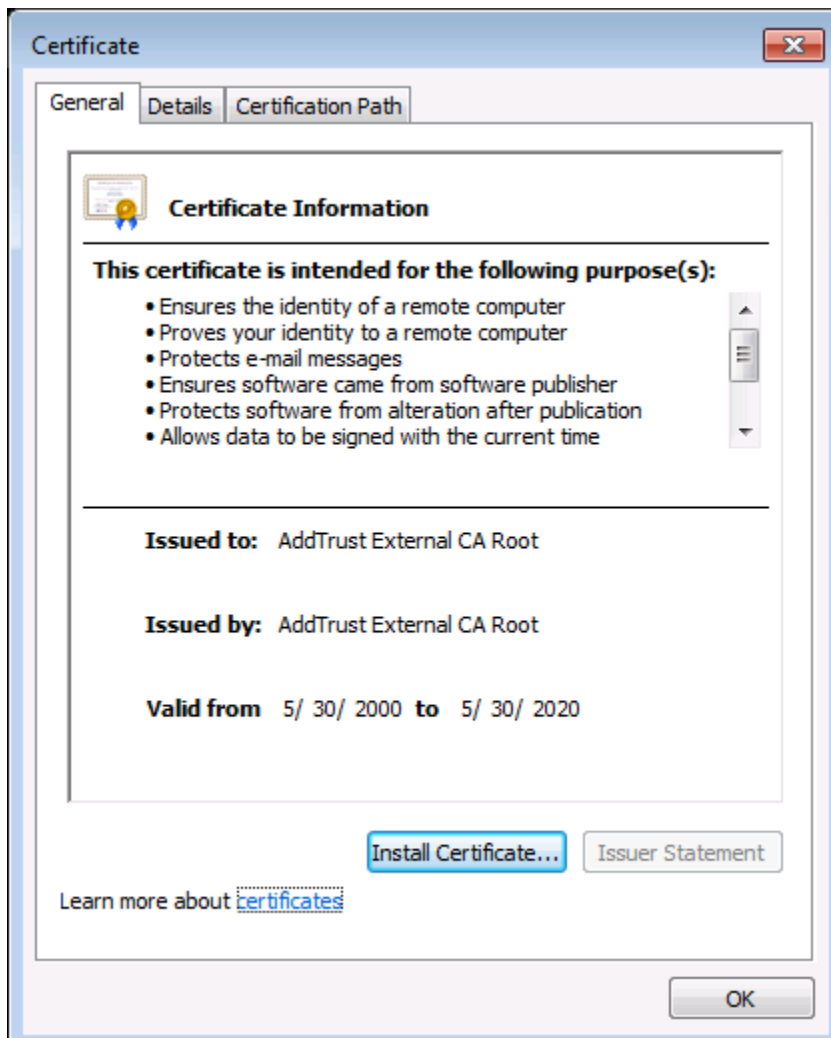

2. Download the three certificate files and save to a known location.

## Instructions for installing certificates

1. Copy the three previously downloaded certificate files to the PC without Internet access. Certificates can be stored in any accessible location (Desktop, Documents, etc.)

2. Double click on a certificate.

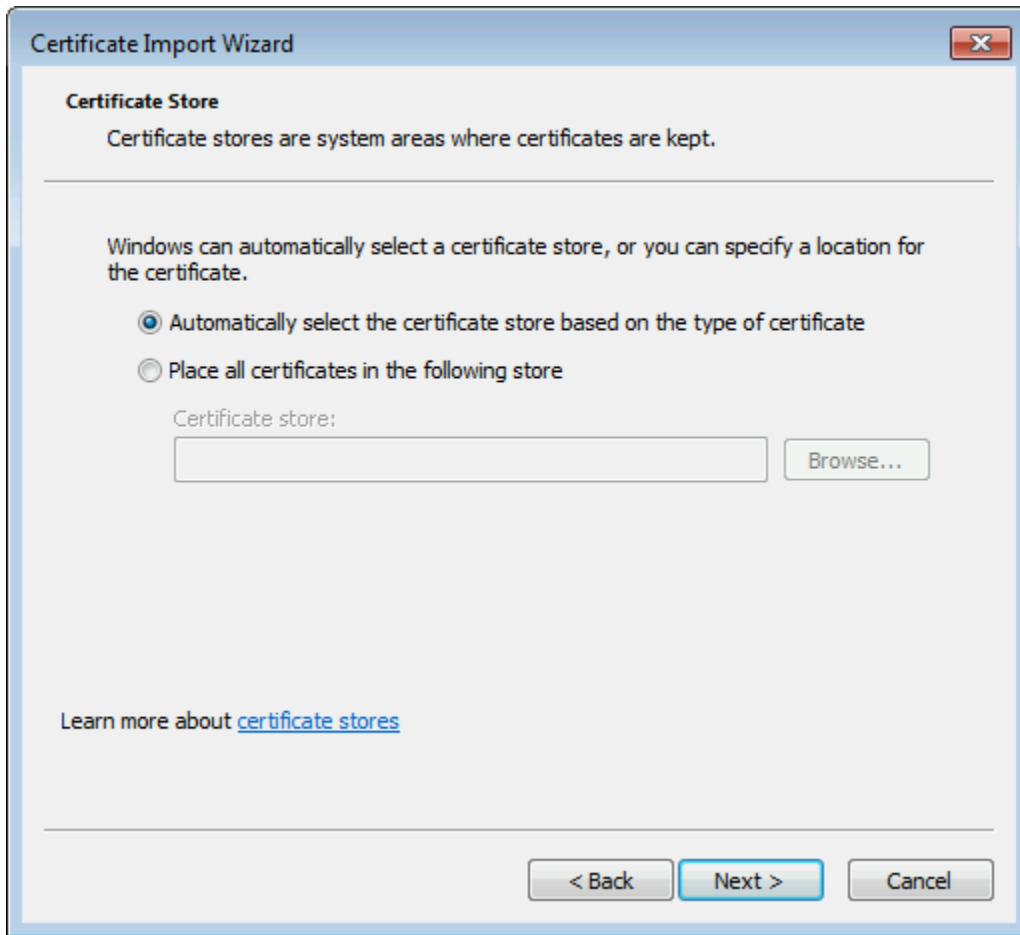

3. On the Install Certificate dialog, click 'Install Certificate' button.

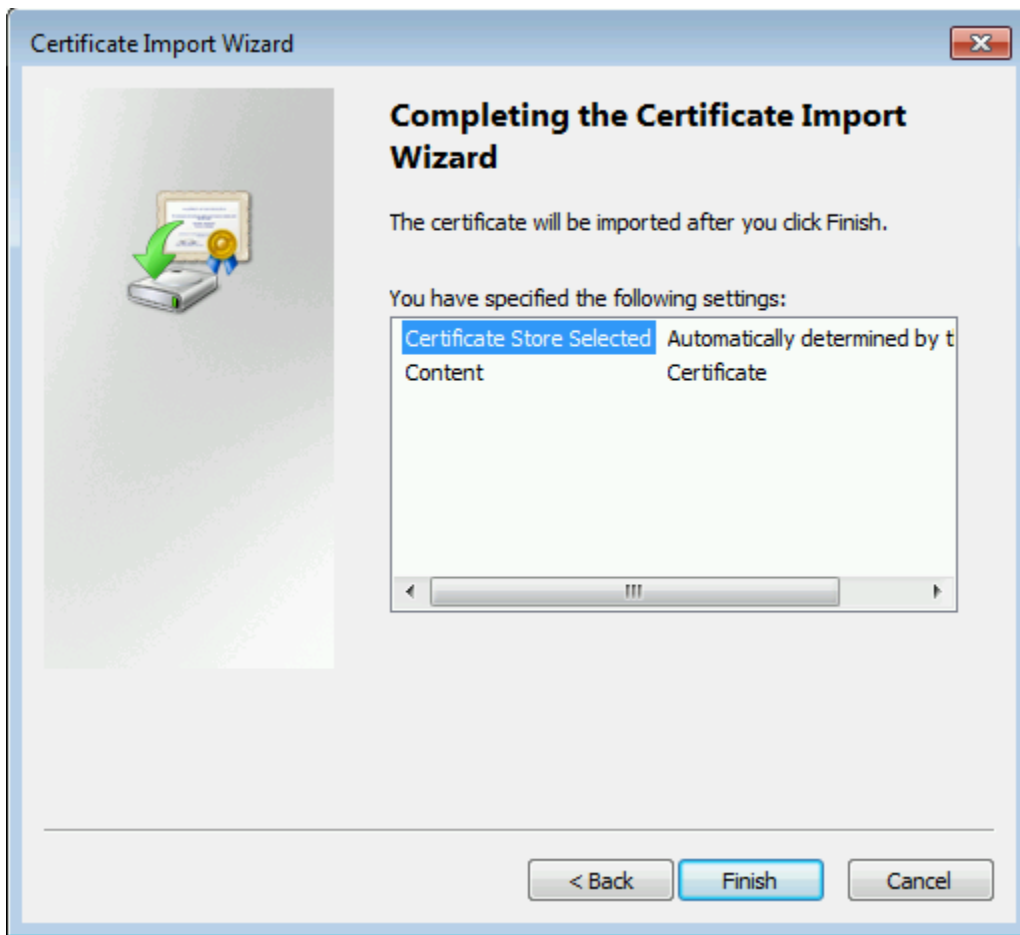

4. On Certificate Import Wizard, click Next

5. On Certificate Import Wizard, select 'Automatic' option and click Next

6. On Certificate Import Wizard, click 'Finish'

7. Repeat steps 2 through 6 for all three certificates.
